Rules of the Department of Accounting and Law

#### **Diplomas and Degree**

A1: The following Diplomas and an Advanced Diplomas are offered in the Department and Law.

#### Diploma in Accounting: Diploma in Accounting (4 years: ACOECP): NQF Level 6 SAQA ID: 90506 SAQA Credits: 404

#### Duration: 4 years

Teaching, Learning and Assessment: The Student Guide contains details of teaching, learning and assessment issues.

Work-Integrated Learning (WIL): None

#### Rationale for the Qualification:

This qualification provides accountancy knowledge and skills to ensure competence in performing reporting functions, rendering taxation services and management advisory services on an accounting technician level and to convert this embedded knowledge, practically, into accounting software. Hence, the rationale and the purpose for this qualification is to provide a well-rounded, technically focused education that equips learners with the technical knowledge, proficiency and pervasive skills which will enable them to demonstrate initiative and responsibility; and which will enable the development of practical and operational focused qualities.

#### Statement of Purpose:

This 4-year programme is designed to provide structured support to students over a period of four years. Hence, it addresses the gaps and under-preparedness in students' educational and life experiences in areas such as mathematics, language, computer and entrepreneurial skills; thus enabling them to face the challenges identifiable with the regular programme: Diploma in Accounting.

#### Exit Level Outcomes:

Upon completion of the 4-year Diploma in Accounting, the qualifying learners will able to:

- Demonstrate a solid knowledge base across the core disciplines of accountancy, namely: financial
  accounting, management accounting, taxation and auditing.
- Acquire knowledge of and demonstrate competence in all areas of Financial Accounting.
- Demonstrate knowledge and competence in all areas of Cost and Management Accounting.
- Demonstrate a sound understanding of the nature of law and an appreciation of the role of law within which an accountant operates.
- Demonstrate knowledge and understanding of Management Accounting Control Systems.
- Demonstrate knowledge and understanding of corporate strategy.

#### Diploma in Accounting (3 years: ACODIP): NQF Level 6 SAQA ID: 90506 SAQA Credits: 404

Duration: 3 years

Teaching, Learning and Assessment: The Student Guide contains details of teaching, learning and assessment issues.

Work-Integrated Learning (WIL): None

#### Rationale for the Qualification:

This qualification provides accountancy knowledge and skills to ensure competence in performing reporting functions, rendering taxation services and management advisory services on an accounting technician level and to convert this embedded knowledge, practically, into accounting software. Hence, the rationale and purpose of this qualification is to provide a well-rounded, technically focused education that equips learners with the technical knowledge, proficiency and pervasive skills which will enable them to demonstrate initiative and responsibility; and which will enable the development of practical and operational focused qualities.

#### Statement of Purpose:

The purpose of this qualification is to provide a well-rounded, technically focused education that equips learners with the technical knowledge, proficiency and pervasive skills which will enable them to demonstrate initiative and responsibility; and which will enable the development of practical and operational focused qualities.

#### Exit Level Outcomes:

Upon completion of the 3-year Diploma in Accounting, the qualifying learners will able to:

- Demonstrate a solid knowledge base across the core disciplines of accountancy, namely: financial
  accounting, management accounting, taxation and auditing.
- Acquire knowledge of and demonstrate competence in all areas of Financial Accounting.
- Demonstrate knowledge and competence in all areas of Cost and Management Accounting.
- Demonstrate a sound understanding of the nature of law and an appreciation of the role of law within which an accountant operates.
- Demonstrate knowledge and understanding of Management Accounting Control Systems.
- Demonstrate knowledge and understanding of corporate strategy.

#### Cost and Management Accounting: Diploma in Cost and Management Accounting (CMADIP): NQF Level 6 SAQA ID: 67694 SAQA Credits: 404

Duration: 3 years

Teaching, Learning and Assessment: The Student Guide contains details of teaching, learning and assessment issues.

Work-Integrated Learning (WIL): None

#### Rationale for the Qualification:

This qualification allows learners access to the accounting profession and all economic sectors that require an accounting function and will increase skills in these sectors, hence provide a pool of well qualified people whose competence will be internationally recognized and who will be able to perform a number of functions within the economically active sectors of South Africa. Hence, on completion, learners will have the necessary financial skills to engage in self-employment of an entrepreneurial nature, thereby contributing to job creation and ultimately contributing to the reduction of unemployment in South Africa.

#### Statement of Purpose:

The purpose of this qualification is to provide the learner with the knowledge, skills and experience to become a Management Accountant. Consequently, the learner will benefit both in terms of individual development along a path of life-long learning (independence and self-reliance) and social transformation (critical and analytical thinking, questioning approach; and hence challenge the truth and value of received wisdom) through the formal acknowledgement of competencies, skills and knowledge through the attainment of a registered qualification thereby enhancing his/her employment prospects.

#### Exit Level Outcomes:

Upon completion of the 3-year Diploma in Accounting, the qualifying learners will able to:

- Explain the role of and purpose of Financial Management.
- Identify and evaluate sources of finance and calculate the cost of capital.
- Analyze the overall management of working capital and evaluate debtor and creditor management.
- Apply and evaluate standard costing.
- Prepare and evaluate plans, budgets and forecasts.
- Apply and evaluate the use of costing systems for planning and decision making.
- Prepare and evaluate plans, budgets and forecasts for a wide range of sectors.
- · Evaluate costing and accounting systems for a wide range of sectors.
- · Apply and evaluate techniques used in management decision making for a wide range of sectors.
- Apply and evaluate alternative methods of investment appraisal.
- Evaluate and recommend improvements to the control of organizational activities, resources and the management of quality.
- Participate in the management of projects

#### Advanced Diploma in Cost and Management Accounting (ADVCMA): NQF Level 7 SAQA ID: 101987 SAQA Credits: 120

Duration: 1 year (full-time)

Teaching, Learning and Assessment: The Student Guide contains details of teaching, learning and assessment issues.

Work-Integrated Learning (WIL):

None

#### Rationale for the Qualification:

This qualification allows learners to acquire knowledge, analytical skills and competencies required to operate effectively in any section of accountancy discipline and to perform management accounting functions in a manufacturing organization.

#### Statement of Purpose:

The purpose of this qualification is to produce graduates who are potential employees/employers who can provide current information, based on today's facts and tomorrow's probabilities, that is essential for the effective and efficient running of the fourth Industrial Revolution type of an organization.

#### Exit Level Outcomes:

Upon completion of the 1-year degree in Cost and Management Accounting, the qualifying learners will able to:

- Develop and evaluate effective long-term plans and strategies; and goals to meet the objectives of an organization.
- Develop and evaluate short-term operational plans; and control projects and resources by means

of well-structured operational budgets.

- Record and analyze transactions and activities; and to compile resourceful management accounts.
- · Provide and interpret financial and economic information for rationale decision-making.
- Source and control funds for an organization.

#### Advanced Diploma in Accounting (ADVACC): NQF Level 7 SAQA ID: 112683 SAQA Credits: 120

Duration: 1 year (full-time)

Teaching, Learning and Assessment: The Student Guide contains details of teaching, learning and assessment issues.

Work-Integrated Learning (WIL): None

#### Rationale for the Qualification:

The qualification is built on the skills and knowledge acquired at the diploma in accounting level 6 and should provide advanced accountancy knowledge and skills to ensure competence in performing reporting functions, rendering taxation services, management advisory services and assurance on an accounting professional level and further integrate the required skills and knowledge into a computerized an accounting, taxation, management and auditing software programmes.

The qualification also aims to provide learners with the intermediate necessary knowledge, competence and skills to work in an accountancy environment and understand the world of work, be confident about their value and have a higher than average chance of being employed.

The qualification further seeks to equip learners with management accounting skills and knowledge thereby satisfying the national demand for public and private sector accounting technicians.

#### Statement of Purpose:

Equips learners with the intermediate knowledge, proficiency and pervasive skills which will enable them to demonstrate initiative and responsibility and which will enable the development of practical and operational focused qualities.

This Qualification is designed with the view to serve the requirements of the South African Institute of Chartered Accountants (SAICA), the Association of Accounting Technicians (SA), the South African Professional Accountants (SAIPA), the South African Institute of Tax Practitioners (SAIT), the South African Institute of Internal Auditors (SAIIA), the Association of Certified Chartered Accounts (ACCA) and the Chartered Institute of Management Accountants (CIMA), thus enabling learners to register with the above professional bodies for a professional qualification.

#### Exit Level Outcomes:

Upon completion of the Advanced Diploma in Accounting, the qualifying Learners will be able to:

- Demonstrate a solid knowledge base across the core disciplines of accountancy, namely, financial
  accounting, management accounting, taxation and auditing.
- Acquire knowledge of and demonstrate competence in all areas of Financial Accounting.
- Demonstrate knowledge and competence in all areas of Cost and Management Accounting.
- Acquire an understanding of Information Systems in business.
- Demonstrate a sound understanding of the nature of law and an appreciation of the role of law within which an accountant operates.
- Demonstrate knowledge and understanding of Management Accounting Control systems.
- · Demonstrate knowledge and understanding of corporate strategy.

Public Finance and Accounting: Diploma in Public Finance and Accounting (4 years: FINECP): NQF Level 6 SAQA ID: 49554 SAQA Credits: 380

Duration: 4 years

Teaching, Learning and Assessment: The Student Guide contains details of teaching, learning and assessment issues.

Work-Integrated Learning (WIL): None

#### Rationale for the Qualification:

The public officials in South Africa operate in a wide variety of roles within the public management structures; hence often work in diverse operating and service delivery circumstances. The sustainability of South Africa's democratic process and developmental governance are strongly linked to capacity building within the three spheres of government, i.e. National, Provincial and Local spheres of government. It is, therefore, imperative that public officials receive an up-to-date, relevant and respected public financial management and administration qualification that recognizes that the knowledge and skills which South Africa's public sector officials require have been satisfactorily obtained. Consequently, public officials need to have excellent awareness and understanding of the changing needs of today's public service delivery systems and to identify very clearly the highly relevant expertise which these officials bring to their roles in the public sector.

#### Statement of Purpose:

The purpose of this qualification is to provide a structured programme for public officials that work with senior management officials so as to provide support to strategic leadership and management needed to transform all spheres of government. The need for well qualified, efficient and client-oriented public officials is therefore identified as a priority in all three spheres of government. Consequently, this qualification consists of exit learning outcomes covering accounting reporting, administration, auditing, budgeting, economics, information systems, business calculations and legislative framework for the public sector.

This 4-year programme is designed to provide structured support to students over a period of four years. Hence, it addresses the gaps and under-preparedness in students' educational and life experiences in areas such as mathematics, language, computer and entrepreneurial skills; thus enabling them to face the challenges identifiable with the regular programme: Diploma in Public Finance and Accounting.

#### Exit Level Outcomes:

Upon completion of the 4-year Diploma in Public Finance and Accounting, the qualifying learners will able to:

- Conduct and apply mathematical analyses relating to economics and finance.
- Apply economics principles to finance and management decisions.
- Apply communication principles in the coordination of selected public sector communication programmes.
- Apply accounting principles and procedures in the preparation of reports for decision making.
- · Apply cist management information systems in the preparation of management reports.
- Apply selected Generally Recognized Accounting Practice statements to the periodic reporting process.
- Apply principles of computerized systems to manage data and reports relevant to the public sector.
- Apply operations research principles and tools in the management of project activities and resources.

Diploma in Public Finance and Accounting (3 years: FINDIP): NQF Level 6 SAQA ID: 49554 SAQA Credits: 380 Duration: 3 years

Teaching, Learning and Assessment: The Student Guide contains details of teaching, learning and assessment issues.

Work-Integrated Learning (WIL): None

#### Rationale for the Qualification:

The public officials in South Africa operate in a wide variety of roles within the public management structures; hence often work in diverse operating and service delivery circumstances. The sustainability of South Africa's democratic process and developmental governance are strongly linked to capacity building within the three spheres of government, i.e. National, Provincial and Local spheres of government. It is, therefore, imperative that public officials receive an up-to-date, relevant and respected public financial management and administration qualification that recognizes that the knowledge and skills which South Africa's public sector officials require have been satisfactorily obtained. - Apply operations research principles and tools in the management of project activities and resources.

#### Local Government Finance: Diploma in Local Government Finance (3 years: LOGDIP): NQF Level 6 SAQA ID: 101557 SAQA Credits: 360

Duration: 3 years The Student Guide contains details of teaching, learning and assessment issues.

Work-Integrated Learning (WIL): None

#### Rationale for the Qualification:

The need for this qualification emanates from the fact that the public service should attract highly skilled people and cultivate a sense of professional common purpose and a commitment to developmental goals. To achieve this, South Africa needs a two-pronged approach to building a more professional public service from the top and the bottom. South Africa needs to increase the pool of skilled people by ensuring that the public service and local government become careers of choice for graduates who wish to contribute to the development of the country; and ensure that high-level personnel are recruited on the basis of their suitability for the job.

In terms of the National Development Plan (NDP 2030: 418), a separate strategy is needed to recruit highcalibre people into local government. Be this as it may, it is in the interest of all spheres of government to ensure sufficient capacity exists to implement core government priorities and responsibilities, particularly ensuring that everyone has access to high-quality basic services. It is observable, however, that skills shortages are most evident in local government, especially in rural municipalities. Municipalities require a flow of promising graduates if they are to manage their core functions; and the national government should prioritize this area, i.e. provision of local government academic programmes at Higher Education Institutions to produce high-quality graduate outputs for deployment at local government level.

#### Statement of Purpose:

The purpose of this qualification is to enable qualifying learners to apply strategic financial management competencies to ensure effective, efficient and economical utilization of public funds at local government level. Learners will, therefore, develop competencies to manage strategic planning and budgeting processes, financial management processes and internal controls, auditing and reporting processes. Consequently, qualifying learners will benefit through the enhancement of their personal competencies, knowledge and skills; thus being better equipped to complete tasks required in their employment contracts and by applicable legislation.

#### Exit Level Outcomes:

Upon completion of the 3 year Diploma in Local Government Finance, the qualifying learners will able to:

- Demonstrate knowledge and critical understanding of municipal finance issues in general; and their areas of focus in particular.
- Implement well-grounded and systematically developed principles in municipal financial management.
- Understand and engage with the broader field of municipal financial management.
- Provide support as a strategic management leader in the field of municipal financial management.
- Contribute to the other's understanding of current and emerging municipal finance issues.
- Demonstrate responsibility and adaptability as a professional in a municipality setting.
- Apply operations research principles and tools in the management of project activities and resources.

#### Diplomas

Admission

- A2: (1) To be admitted to any of the above-mentioned under-graduate programmes, a candidate shall have obtained a valid National Senior Certificate, Senior Certificate, National Certificate (Vocational) or qualifies to be admitted in terms of the Recognition of Prior Learning (RPL) assessment.
- (2) The Tables below show the minimum admission requirements for all the under-graduate programmes (except for RPL).

| Programme | Accounting | English<br>Home<br>Language | English<br>First<br>Additional<br>Language | Mathematic<br>s | Mathematical<br>Literacy | 3 additional<br>subjects @<br>minimum<br>achievement level<br>of 3, excl. Life<br>Orientation |

Minimum Admission requirements for candidates with a National Certificate (Vocational): Level 4 Fundamental subjects required pass percentages in each subject:

| Programme | Mathematics | Mathematical Literacy | English    | Life Orientation |  |  |
|-----------|-------------|-----------------------|------------|------------------|--|--|
| -         |             | -                     | First      |                  |  |  |
|           |             |                       | Additional |                  |  |  |
|           |             |                       | Language   |                  |  |  |
| ECP       | 50%         | 60%                   | 50%        | 50%              |  |  |
| RP        | 50%         | 60%                   | 50%        | 50%              |  |  |
|           | 14.0        | 1                     |            |                  |  |  |

In addition, Level 4 Compulsory subjects required pass percentages in each subject:

| Programme | Applied Accounting | Financial Management | Economic Environment |
|-----------|--------------------|----------------------|----------------------|
| ECP       | 60%                | 60%                  | 60%                  |
|           |                    |                      |                      |
| RP        | 60%                | 60%                  | 60%                  |

#### Recognition of Prior Learning (RPL):

Candidates that are able to demonstrate high levels of competencies, through summative assessment processes attached to each of the above-mentioned under-graduate programmes, will receive recognition of prior learning (RPL); in recognition of competencies attained in the workplace setting for many years without having gained any formal qualification.

(3) A student who fails to maintain satisfactory academic progress in terms of General Rule: G.20 (1) & (2) shall be refused further admission to the Department except by special permission of Senate.

(4) The admission of a student previously registered in an equivalent Department at another University of Technology shall be subject to the same rules as if he previously had been in this Department.

(5) To be admitted to the Advanced Diploma in Cost and Management Accounting, a student shall be in possession of:

- A National Diploma in Cost and Management Accounting, preferably not older than 3 years, with minimum pass of 60% in each of the following subjects: (1) Financial Accounting III, and Management Accounting III; or
- b) A minimum of two years of relevant work experience in an accounting field.
- c) A Diploma in Cost and Management Accounting with an average of 60% pass in level 3 subjects.

(6) To be admitted to the Advanced Diploma in Accounting, a student shall be in possession of:

- A Diploma in Accounting, preferably not older than 3 years, with minimum pass of 60% in each of the following subjects: (1) Financial Accounting III, and Management Accounting III/Financial Management III; Taxation II and Auditing III; or
- b) A minimum of two years of relevant work experience in an accounting field and RPL policies and procedures of the University shall be applied. A certificate of competency of RPL must be obtained from the University.

#### Curriculum: Diploma in Accounting (ACOECP)

#### Promotion Rules:

A8 The following promotion rules apply to the diplomas and advanced diplomas offered in the Department:

#### Minimum and maximum periods to complete a qualification:

#### A 3-year diploma qualification:

- Minimum period: 3 years for full-time and part-time students.
- Maximum period: 5 years for full-time students; and 7 years for part-time students.

#### A 4-year diploma qualification:

- Minimum period: 4 years for full-time students only; and
- Maximum period: 6 years for full-time students only.

#### A 1-year advanced diploma:

- Minimum period: 1 year for full-time and part-time students.
- Maximum period: 2 years for full-time students and 4 years for part-time students.

#### Students in the pipeline

 All final year students shall be allowed to register for final year subjects provided current prerequisites/co

requisites are met.

• All other students shall be transferred to a current qualification and shall be subject to these rules.

#### Pre-requisite and Co-requisite subjects:

General Rule G.18 (g) (i) (ii), respectively, shall apply.

#### (a)ACOECP:

- To be promoted from the first to the second year of study, a student shall have passed at least four (4) subjects; including Introduction to Fundamentals of Accounting.
- (ii) To be promoted from the second to the third year of study, the student shall have passed at least three (3) subjects, including two (2) major subjects.
- (iii) To be promoted from the third to the fourth year of study, a student shall have completed at least five (5) subjects, including all major subjects; and
- (iv) To complete a qualification, a student shall have passed twenty-three (23) subjects.

#### (b) ACODIP:

- (i) To be promoted from the first year to second year of study, a student shall have passed at least three (3) subjects, including two (2) major subjects.
- (ii) To be promoted from the second to the third year of study, a student shall have completed at least **five (5) subjects, including all major subjects; and**.
- (iii) To complete a qualification, a student shall have passed eighteen (18) subjects.

#### (c) FINECP:

- (i) To be promoted from the first to the second year of study, a student shall have passed at least four (4) subjects; including Introduction to Accounting.
- (ii) To be promoted from the second to the third year of study, the student shall have passed at least three (3) subjects, including two (2) major subjects.
- (iii) To be promoted from the third to the fourth year of study, a student shall have completed at least eleven (11) subjects, including two (2) major subjects; and
- (iv) To complete a qualification, a student shall have passed twenty (21) subjects.
- (d) FINDIP:
  - To be promoted from the first to the second year of study, a student shall have passed at least three (3) subjects; including one (1) major subject.
  - (ii) To be promoted from the second to the third year of study, a student shall have completed at least **nine** subjects (9), including two (2) major subjects.

(iii) To complete a qualification, a student shall have passed sixteen (16) subjects.

#### (e) CMADIP:

- (i) To be promoted from the first to the second year of study, a student shall have passed at least **three** 
  - (3) subjects; including one (1) major subject.
- To be promoted from the second to the third year of study, a student shall have completed at least five (5) subjects, all must be major subjects; and
- (iii) To complete a qualification, a student shall have passed seventeen (17) subjects.

#### (d) LOGDIP:

- (i) To be promoted from the first to the second year of study, a student shall have passed at least three (3) subjects; including two (2) major subjects.
- (ii) To be promoted from the second to the third year of study, a student shall have completed at least nine (9) subjects; including two (2) major subjects; and
- (iii)To complete a qualification, a student shall have passed sixteen (16) subjects.

#### Restrictions: Four-Year Programmes

A10 The following restrictions shall apply in respect of the four year programmes in Accounting and in Public Finance

and Accounting.

 No student shall be allowed to register for ANY programme in the Department if a subject: Introduction to Fundamentals of Accounting (ACOECP) or Introduction to Accounting (FINECP) has been failed.

#### Major Subjects:

A11 The following subjects are major subjects:

| Financial Accounting  | Local Government Finance      |
|-----------------------|-------------------------------|
| Management Accounting | Local Government Management   |
| Auditing              | Public Finance and Accounting |
| Taxation              |                               |

#### Examination:

- A12 1. A department may be permitted to offer a first-semester course during the second semester and a second-semester course during the first semester of a particular year.
  - 2. Admission to the examination together with pass requirements as laid down in the provisions of the General Rules G.22.3 is applicable.

#### Curriculum: Advanced Diploma in Cost and Management Accounting (ADVCMA)

A14 The subjects shall be as follows:

| Subject Code | Subject                           | NQF Credits |
|--------------|-----------------------------------|-------------|
| MANA400      | Management Accounting IV          | 24          |
| FIRE400      | Financial Reporting IV            | 24          |
| PROM400      | Systems and Project Management IV | 24          |
| RESE400      | Research Methodology IV           | 12          |
| BUSS400      | Business Strategy                 | 12          |
| FINA400      | Financial Management IV           | 24          |

The Department has obtained accreditation from the Chartered Institute of Management Accountants (CIMA) for students that pass the Advanced Diploma in Cost and Management Accounting. Students will be awarded 4 exemptions from the CIMA Certificate in Business Accounting which are:

| Subject<br>Code | Subject   |
|-----------------|---|
| BA1             | Fundamentals of Business Economics                            |
| BA2             | Fundamentals of Management Accounting                         |
| BA3             | Fundamentals of Financial Accounting                          |
| BA4             | Fundamentals of Ethics, Corporate Governance and Business Law |

#### Curriculum: Advanced Diploma Accounting (ADVACC)

#### A. The subjects shall be as follows:

| Subject Code | Subject                               | NQF Credits |
|--------------|---------------------------------------|-------------|
| MACF400      | Management Accounting and Finance 400 | 32          |
| FACC400      | Financial Accounting 400              | 32          |
| TAXA400      | Taxation 400                          | 32          |
| AUDI400      | Auditing 400                          | 32          |

## 2.1 DEPARTMENT OF HUMAN RESOURCE MANAGEMENT

Diploma in Human Resource Management

| Qualifications | SAQA ID           |
|----------------|-------------------|
| Diploma in HRM | 96861             |
| ND: HRM        | 3204147           |
| NQF Level: 6   | SAQA Credits: 360 |

### Rationale for the Qualification

This qualification is intended for students aspiring to a career in the Human Resource Management field. It is designed to provide an entry into a career in HRM. It will enable students to gain in-depth knowledge of the four role clusters of HRM discipline. The course content is closely aligned with the professional body (SABPP) standards developed by academia and industry.

It is offered at NQF level 6 and articulates vertically into a Degree or an Advanced Diploma in Human Resource Management.

### Statement of Purpose

This Diploma is designed for people who operationalise some aspects of the core processes and practices at entry level across the four role clusters in Human Resource Management and Practices:

- Strategic planning for human resource management and practices.
- Acquisition, development and utilisation of people.
- Establishment and improvement of labour and employee relations.
- Compensation and administration related to human resources management and practices.

Holding this qualification could serve as a requirement for professional registration at associate level e.g. South Africa Board for People Practices (SABPP) and Institute of People Management (IPM).

#### **Qualification Rules**

This qualification comprises 14 compulsory modules exiting at NQF Level 6, totaling 360 Credits:

# **Exit Level Outcomes**

- A learner who successfully completes this programme will be able to:
- Co-ordinate and contribute to the management of some aspects of all of the four role clusters related to Human Resources Management and Practices.
- Recruitment and induction of new employees.
- Contribute to the development of employees.
- Contribute to the establishment and improvement of labour and employee relations (including contributing to employee assistance and wellness programmes).
- Adhere to legislative requirements and organisational policies and procedures when coordinating some of the core processes related to Human Resources Management and Practices.
- Promote best human resources management practices in an organisation.
- Contribute to the monitoring of Health and Safety at the workplace.
- Identify strengths and areas for improvement in own learning through self-reflection and reflection on organisational Human Resources Management and Practices.

### Teaching, Learning and Assessment

#### Integrated Assessment:

- All assessments will integrate knowledge, skills, attitude and applied competence of the discipline. The institutional assessment policy makes provision for assessment instruments ranging from written or oral tests, presentations on topical business issues, assignments, projects, case studies or simulation exercises to name a few.
- For this qualification there will be three assessments which constitute a year mark. Learners will write two tests, and one group assessment. Lecturers are encouraged to use a variety of assessment instruments in order to cater for different learning abilities of learners. The weighting of each test is 35% and 30% for the group project.

#### Formative Assessment:

Three assessments constitute a year mark which contributes 40% towards the final mark.

#### Summative Assessment:

A candidate passes the subject if a final mark of at least 50% is obtained. The final mark comprises of a year mark and examination mark in the ratio of 40:60 respectively.

#### **Curriculum Content**

# LEVEL I

### MODULE NAME: ACCOUNTING FOR PERSONNEL PRACTITIONERS

### MODULE OVERVIEW

- Provide the students with basic skills to interpret accounting information meaningfully and to apply it
  practically;
- To enable students to understand and apply planning, budgeting and control techniques;
- To enable students to understand how financial and other data are analysed in order to provide information for decision-making;
- introduce the concept of general accepted accounting procedures used in the business world; and
- To demonstrate functional knowledge of basic financial aspects relating to the human resource functions.

# MODULE OUTCOMES

Student must be able to have:

- Demonstrate a comprehensive understanding of the basic framework of the accounting model to meet the needs of industry and the accounting professions;
- Apply the accounting rules in determining financial results;
- Compare the specificity of different accounts within the accounting policies;
- Develop and understand the nature and purpose of financial statements in relationship to decision making;
- Develop the ability to use the fundamental accounting equation to analyse the effect of business transactions on an organization's accounting records and financial statements;
- Develop the ability to use a basic accounting system to create (record, classify, and summarize) the data needed to solve a variety of business problems; and
- Prepare financial statement.

# MODULE NAME: QUANTITATIVE TECHNIQUES 1

### MODULE OVERVIEW

In this statistics module students learn about the methods of collecting, representing and analysing data so as to make informed decisions about collected data. It also empowers them with research skills or procedures when conducting hypothesis test. The probability, regression analysis and time series learnt in this module enable students to use the given data to make prediction and forecasts for the future.

### **MODULE OUTCOMES**

Student will be able to:

- analyse the given data and identify the relevant formula to solve a given statistical problem.
- represent the given data graphically.
- apply the sampling methods and be aware of their advantages/disadvantages.
- interpret the strength and directions of the relationship between variables they may be comparing.
- apply the five measure steps when doing hypothesis test.

### MODULE NAME: BUSINESS MANAGEMENT 1

# MODULE OVERVIEW

Business management is a dynamic field of study that focuses on institutions that satisfy customers' needs. The purpose of Business Management is to introduce and provide students with insight of how a business organisation operates. It is intended to introduce students to the knowledge about the different functions of a business organisation and to equip them with skills and insight of how a business operates.

## MODULE OUTCOMES:

At the end of the module students will be able to:

- Describe and apply management functions.
- Demonstrate an understanding of major economic systems, with emphasis on South African economy.
- Identify and discuss different types of business and their legal implications.
- Describe how a business organisation can respond to the influences of the environment.
- Explain the importance of marketing management on business operations.

# MODULE NAME: HUMAN RESOURCE MANAGEMENT 1

### MODULE OVERVIEW:

The purpose of the module is to provide the foundation for the understanding human resource (HR) and how to manage it, by exposing students to psychological aspects of human behaviour and the fundamental principles underlying the human management practice in South Africa.

# MODULE OUTCOMES:

Student must be able to have:

- The dynamic factors in human management, the development of and an introduction to the human managers' role in a business.
- Acquired basic interpersonal and intrapersonal skills required to be a successful personnel manager.
- Gain an understanding of the introduction to the responsibilities and realities of a career in human management.
- Gain an insight of the introduction to the aspects that will be studied in depth in Human Resource Management II and III since all synopsis of all the functions of human resource management should have been covered.
- Develop a broad frame of reference regarding psychological aspects of individual behaviour and social processes including but not limited to:
  - Learning theories
  - Perception and personality
  - o Organisation behaviour, conflict, stress and how to manage it
  - o Teams and Groups dynamic, power , leadership

### MODULE NAME: LABOUR LAW

### MODULE OVERVIEW

After having completed this subject learner should be able to demonstrate an understanding of the legal principles which govern the employment relationship.

# MODULE OUTCOMES:

Successful completion of Labour Law (LABL110) means that the learner will be able to:

- Appreciate the common law contract of employment and the differences between an employee and an independent contractor;
- Explain and discuss the main objectives of the Labour Relations Act 66 of 1995 (the "LRA"), collective bargaining as well as strikes and lock-outs.
- Give an exposition of different types of dismissals, requirements for fair dismissal, remedies for unfair dismissal and the dispute resolution path for various types of dismissals.
- Identify employer conduct which amounts to an unfair labour practice as contemplated in section 186(2) of the LRA.
- Apply provisions of the Basic Conditions of Employment Act 75 of 1997 to scenario-type questions.
- Understand some important sections of the Occupational Health and Safety Act 85 of 1993.

# MODULE NAME: LANGUAGE ENGLISH

### MODULE OVERVIEW:

The purpose of the subject is to equip the student with the communication skills needed to be successful at the workplace. The course also prepares you to meet the communication challenges at the university and other social spaces.

# MODULE OUTCOMES:

At the end of this course, the learner will be able to:

- Understand the role of effective communication in the work environment.
- · Speak and listen effectively in a variety of social, business and professional contexts.
- Demonstrate the interpersonal communication skills required to make presentations, participate in interviews, small group discussions and meetings.
- Read and respond appropriately to letters, reports, faxes, e-mails and other business documents.
- Produce effective meeting documentation.

# LEVEL 11

# MODULE NAME: BUSINESS MANAGEMENT 11

# MODULE OVERVIEW:

Operations management deals with the management of processes exploited to conceive, deliver, create and distribute goods and services to customers that are value adding. Operations management and managing the supply chain would improve decision-making at the strategic level. It is necessary to coordinate processes external to the organisation's immediate control such as suppliers and distributors. Businesses have to effectively manage their finances in order to become successful. No business firm can be started and operated without sufficient financing.

# MODULE OUTCOMES:

Students must be able to:

- Explain and apply quality control procedures.
- Describe the production scheduling activities.
- Describe the inventory management system of a business.
- Describe the four layout patterns and when they should be used.
- Explain the financial aspects of a business.

### MODULE NAME: HUMAN RESOURCE MANAGEMENT 11

# MODULE OVERVIEW

Many organisations claim that their employees are their most valuable asset. It is for this reason, effective management of human resources is essential for every company. Human Resources help in structuring teams, it builds the organisations culture and it helps people with engagement and development. Human resource management creates a lot of difference in enhancing the productivity of the employees.

At the heart of every successful business lies the human resources team who drive all aspects of staff management. Human resources management offers students a broader suite of knowledge that will increase their skills and understanding of the workplace.

# MODULE OUTCOMES

Students must be able to:

- Contribute to the development, implementation, and evaluation of employee recruitment, selection, and retention plans and processes.
- Administer and contribute to the design and evaluation of the performance management program.
- Develop, implement, and evaluate employee orientation, training, and development programs.
- Facilitate and support effective employee and labour relations in both non-union and union environments.
- Research and support the development and communication of the organization's total compensation plan.
- Collaborate with others, in the development, implementation, and evaluation of organizational and health and
  - o safety policies and practices.

# MODULE NAME: EMPLOYEE RELATIONS 1

# MODULE OVERVIEW

- To provide the contextual overview of employee relations and its evolution in South Africa.
- To provide the legislative framework regulating the relations between employers and employee in the workplace.

# MODULE OUTCOME

Student must be able to have:

- Provide a historical overview and context of ER and discuss the impact of ER on HR.
- Identify and discuss the labour relations perspectives and the macro environmental factors influencing employee relations in SA.
- Discuss the purpose and functions of key pieces of labour legislation.
- Describe labour legislation concerning Diversity Management and Employee Wellness.

# MODULE NAME: HUMAN RESOURCE DEVELOPMENT 1

#### MODULE OVERVIEW:

This module seeks to provide students with training and development of people, with a concise overview of the factors that influence the training and development of people within an enterprise as well the principles and processes that facilitate the management of training and development within a South African context.

# MODULE OUTCOMES:

- At the end of this module, students must be able to:
- · Critically evaluate education, training and development environment in South Africa
- Implement government initiatives in education, training and development including the National Qualifications
- Framework and the Skills Development Legislation
- Analyse the training and development needs

- Design and develop the training programme and course
- Prepare and present training and development
- Assess learning and evaluate training and development

# MODULE NAME: END USER COMPUTING 1

### MODULE OVERVIEW

The qualification provides a framework for students to develop skills that will enable them to become competent in computer skills. It introduces theoretical concepts of computer skills and requires the application thereof, to develop a range of skills that will enable students to be better-informed workers in their chosen industry. It is intended to empower students to acquire knowledge, skills, attitudes and values required to operate confidently in the End User Computing Environment.

# MODULE OUTCOMES

A qualifying learner will be able to:

- Competently apply the knowledge, techniques & skills of End User Computing applications in the workplace.
- Understand the impact and use Information Communication & Technology (ICT) in an organisation and society.
- Improve Communication by combining communication skills with End User Computing skills.
- Improve the application of mathematical literacy in the workplace, by better utilising applicable End User Computing Applications.
- Demonstrate an understanding and the ability to use graphical user-interface (GUI) of computer application used in the workplace.

# LEVEL 111

### MODULE NAME: HUMAN RESOURCE MANAGEMENT 111

### MODULE OVERVIEW:

Human resource since it is regarded as the most valuable assets in any organisation, so it is very imperative to gain an extensive knowledge as to how to manage such an asset, so that the organisation can be able to achieve its own goals and be competitive in the global village, through applying the best practised that are aligned with SABPP HR standards.

It is however of importance to always keep up to date with the latest development made through to the profession by engaging with the various stakeholders including HRUF, businesses and the community to ensure that what is offered is aligning with what the industry want, so that there graduates can be employable and or be job creator.

# MODULE OUTCOMES:

Student must be able to have:

- Be able to provide a comprehensive understanding of organisational development and provides a framework for identifying the key pivotal areas which enhance organisational efficiency and effectiveness.
- Proficiency in measuring and controlling labour turnover and absenteeism, basic interpersonal and intrapersonal skills required to succeed as a personnel manager or practitioner.

- Be able to assess and interpret the role of resistance and commitment in relation to change, propose change strategies for enhancing organizational development, and facilitate change implementation.
- Gain insight into specific functions to understand other functions involve in human resource including but not limited to:
  - Human resource information systems
  - Career management and development
  - Performance management
  - Compensation and reward system
  - Reputation and ethic management

### MODULE NAME: EMPLOYEE RELATIONS 11

### MODULE OVERVIEW

A qualifying learner will be able to:

- Provides a framework for managing individual and collective disputes in the workplace.
- Provides an insight into collective bargaining and negotiation offering management and trade union techniques as well as tactics used during collective bargaining and negotiation.
- Analyse the significance of trade unions recognition agreements and its implications in the future.
- Recognise the role government takes in regulating the employment relationship and its basis for power in society (tripartite structure).
- Consider the impact of employment relations law and practices on organisational stakeholders.
- Provide a framework of conflict resolution, mediation and negotiation in the employment relationship.
- Implementation of employee relations policies, procedures and practises within organisations.

# MODULE OUTCOMES

At the end of this module, students must be able to:-

- Discuss South African Trade unionism and dynamics in respect of membership growth and decline as well as the legal process leading to the recognition of trade unions in the workplace;
- Distinguish between recognition and substantive collective agreements and apply collective bargaining and negotiation techniques and tactics;
- Determine the requirement of substantive and procedural fairness in dispute resolution
- Analyse, interpret and manage conflicts within the workplace and analyse complaints and reports relating to referred disputes and select appropriate resolution process.

### MODULE NAME: HUMAN RESOURCE DEVELOPMENT 11

# MODULE OVERVIEW

The Human Resource Development II course seeks to contextualise the organisation in the broader environment in which it exists through examining the organisation as part of a larger system. The aim of this course is to provide learners with an in-depth understanding of selected topics in Human Resource Development in an organisation.

Human Resource Development II explores the dimensions of Human Resources Development that build on the knowledge acquired in Human Resource Development I. In addition, some of the key contemporary issues facing Human Resources Development Practitioners are identified and discussed. The main thrust of the course applies to examining Human Resource Development as it pertains to employees within and outside organisations. The main objective in transferring this knowledge to the learner is to enable the learner to apply this knowledge within organisations.

# MODULE OUTCOMES:

After studying this learning unit you as a learner should be able to have an understanding and applicability of:

A qualifying learner will be able to:

- Critically review the global skills development models and indicate how they have shaped the South African training and development system.
- Examine the historical evolution of the South African training and development system.
- Explain the training and development challenges in South Africa and how they impact on training and development initiatives at organisational level.
- Discuss the importance of uplifting peoples' skills in an organisational context.
- Explain the purpose of the South African skills development legislation.
- Evaluate the South African government initiatives to raise the skills profile in the labour market.
- Synthesise the importance of the National skills Development strategy in South Africa.
- Critically discuss the role of the different structures created by the skills development legislation and show how this impacts on training and development efforts in South African organisations.

## MODULE NAME: KNOWLEDGE MANAGEMENT

### MODULE OVERVIEW:

Globalization, technology, innovation, productivity, competition and changing demographics are issues that today's organizations are dealing with, and which impact the use of knowledge in the organization. Knowledge management is a trans-disciplinary approach to improving organisational outcomes and learning, by making optimal use of knowledge. It involves the design, implementation and review of social and technological activities and processes to improve the creating, sharing and application or use of knowledge. The aim of this course is to develop understanding of the many ways in which knowledge contributes to operational efficiency and strategy, and to expose students to some of the key theoretical underpinnings.

### MODULE OUTCOMES:

Students must be able to:

- Show understanding of the knowledge and information organization life cycle including, but not limited to, production, organization, distribution, access, preservation, disposition, and retrieval practices of recorded knowledge and information resources of all kinds.
- Explain the key theories and models that inform knowledge management
- Critically apply theory to organisations to identify and justify effective knowledge management strategies and activities.
- Communicate clearly and effectively incorporating varying formats and technologies.
- Design problem solutions based upon research findings and critical assessment of current theory and practice
- Reflect upon different knowledge management paradigms and their value to the organisation
- Evaluate strategies used in value creation in the knowledge economy

## MODULE NAME: BUSINESS MANAGEMENT 111

# MODULE OVERVIEW:

Business Management 111 is aimed at equipping students with skills in strategic direction and environmental analysis, strategy formulation, purchasing and supply chain perspective, strategic marketing as well as entrepreneur skills. This will give students an insight and a holistic overview of how a business organisation operates and how it is managed.

# MODULE OUTCOMES:

Students must be able to:

- Analyse business environments by identifying challenges and opportunities for business and applying applicable strategies to deliver value to stakeholders.
- Demonstrate analytical and problem-solving skills within various disciplines of business, ie, strategic management, strategic marketing and purchasing.
- Understand the differences between purchasing management, supply management, logistic management, supply chain management and the entire value chain management as concepts that have a great impact on how goods and services are sourced within organisations.
- Understand the concept of entrepreneurship and be able to apply a business model that is relevant to the nature of the business.
- Create and grow a new business venture as an alternative to seeking employment.

# MODULE NAME: ENTREPRENEURIAL SKILLS

### MODULE OVERVIEW:

This module aims to empower students with an entrepreneurial mindset and business skills to enhance student's prospects. It will also help them to develop intrapreneurship skills and get them started on the entrepreneurship journey. Students will also learn about risks and rewards in choosing entrepreneurship as a career option.

### MODULE OUTCOMES:

- Develop an entrepreneurial mindset by applying effectuation principles
- Identify problems worth solving through Jobs –To-Be-Done (JTBD)
- Outline customer problems from the customer's point of view
- · Identify customer segments, niche and early adopters
- Design customer persona
- Apply design thinking techniques
- Understand the basics of Business Models using a Lean Approach
- · Design customer value proposition canvas
- · Validate the riskiest assumptions of the business model
- Create basic financial plans
- · Identifying sources of funds
- Recognise the best time to start hiring
- · Display marketing and sales related skills
- Articulate the basics of business regulations

### 2.2 DEPARTMENT OF HUMAN RESOURCE MANAGEMENT

Advanced Diploma in Human Resource Management

| 2.2 Qualifications | SAQA ID           |
|--------------------|-------------------|
| Adv. Dip: HRM      | 94853             |
| NQF Level: 7       | SAQA Credits: 120 |

### Rationale for the Qualification

This qualification is designed to address skills gap in Human Resource Management and Training and Development cited as scarce and critical skills in the country. It is further designed to address the articulation route to higher qualifications for learners who complete a Diploma in Human Resource Management at NQF level 6. The Advanced Diploma in Human Resource Management which is offered at Level 7 articulates horizontally into a Degree or vertically into a Postgraduate Diploma or Honours Degree at Level 8. It replaces the Bachelor of Technology Human Resource Management at NQF Level 7.

#### Statement of Purpose

The purpose of this qualification is to equip learners with the necessary competence to i) support and implement procedures and systems that promote best Human Resource Management (HRM) practices in the organisation, ii) identify skills requirements (workforce planning) of the organisation, iii) acquire an understanding of people dynamics and its impact in the workplace and on productivity and, iv) ensure compliance with Human Resource Management legislation and trends.

In addition, it is designed to allow qualifying learners an opportunity to acquire applied competence in the field of Human Resource Management required for registration with the professional body South African Board for People Practices (SABPP).

#### **Qualification Rules**

This qualification consists of 6 compulsory modules at NQF Level 7, totaling 120 Credits:

### **Exit Level Outcomes**

A learner who successfully completes this programme will be able to:

- 1. Support and implement processes, procedures and systems.
- > Range: Strategic planning for HRM and practices, acquisition, development, utilisation of people, compensation and administration related to HRM.
- 2. Promote best HRM practices in the organisation.
- 3. Identify skills requirements (workforce planning) of the organisation.
- 4. Acquire understanding of people dynamics and its impact in the workplace and on productivity.
- 5. Ensure compliance with HR legislation and trends.

#### Admission requirements

An appropriate Diploma in Human Resource Management or equivalent applicable qualification of 360 credits at NQF level 6. An average pass mark of 60% or more from major subjects is the minimum requirement for admission in this programme. In instances where a student obtained less than 60%, a minimum of two years' experience in a Human Resource related field will be considered.

# ALL ADMISSIONS ARE BASED ON A SELECTION PROCESS ONLY !!!

### **Duration of Study**

Full-time: One year Part-time: Two year

### **Curriculum Compilation and Pre-Requisites**

| -           | C = Compulsory; O =                        | = Optio | nal and               | CA = Contii              | nuous            | assessment               |                  |                    |

### Subjects, Curriculum Compilation and Pre-Requisites

#### Teaching, Learning and Assessment

#### Integrated Assessment:

All assessments will integrate knowledge, skills, attitude and applied competence of the discipline. The institutional assessment policy makes provision for assessment instruments ranging from written or oral tests, presentations on topical business issues, assignments, projects, case studies or simulation exercises to name a few.

#### Formative Assessment:

For this qualification a minimum of two assessments constitute a year mark. Learners are expected to write at least one test and other type of group assessment. Lecturers are encouraged to use a variety of assessment instruments in order to cater for different learning abilities of learners. The weighting of the formative assessment is 50%.

#### Summative Assessment:

Learners are expected to compile one comprehensive individual project which assesses multiple learning outcomes. The weighting of the project is 50%.

A candidate passes the subject if a final mark of at least 50% is obtained. The final mark consists of the year mark and examination mark in the ratio of 50:50.

# Work Integrated Learning

N/A

### **Curriculum Content**

### MODULE NAME: ADVANCED HUMAN RESOURCE MANAGEMENT IV

### MODULE OVERVIEW:

AHRM IV is intended to ensure clear understanding of what being a HR practitioner entails, what is expected of HR managers/practitioners, what type of work they do and what skills, knowledge and attitudes needed to operate optimally. This is important for HRM students because, as HR practitioners and managers of the future, they are going to be part of the business world and must be able to deal effectively with the organisation's human capital and the various factors that bring about change in the workplace.

### MODULE OUTCOMES:

Students must be able to:

- Formulate and align HR strategies with the organisation's overall strategy.
- Analyse human resource systems and human resource information systems in the context of organisational change.
- Apply advanced skills in evaluating HR practices and performance of individuals, groups and systems for a company.
- Acquire entrepreneurial skills to establish an HR consultancy.
- Evaluate HR practices of multi-national companies.

## MODULE NAME: ADVANCED HUMAN RESOURCE DEVELOPMENT IV

### MODULE OVERVIEW:

AHRD IV course seeks to contextualise human resource development in the broader environment of the organisation and the environment within which it operates. The aim of this course is to provide learners with an in-depth understanding of selected topics in Human Resource Development and its alignment to the national training and development goals and the HRD strategy of the country.

Advanced Human Resource Development IV builds on the knowledge acquired in Human Resource at Diploma level. In addition, some of the key contemporary issues facing Human Resources Development and Training and Development Practitioners are identified and discussed.

### MODULE OUTCOMES

Student must be able to:

- Design a human resource development strategy for a company in line with employment equity and black economic empowerment criteria.
- develop and implement a quality management system for human resource development in an organisation.
- Formulate a mentoring and coaching implementation plan for an organisation.
- measure the financial return on investment (ROI) of a human resource development intervention to show the HRD value proposition for an organisation.

### MODULE NAME: ADVANCED STRATEGIC MANAGEMENT IV

### MODULE OVERVIEW:

ADSM IV is aimed at equipping students with skills in strategy-formulating, strategy-implementing, understanding the relevance of strengthening a company's resource complement and upgrading its competencies and competitive capabilities to match market realities and create a sustainable competitive advantage.

# MODULE OUTCOMES:

Student must be able to:

- Demonstrate an ability to formulate a corporate strategy using all the required strategic planning tools.
- Demonstrate an ability to implement the strategy taking into consideration the internal resources and capabilities of the company.
- Demonstrate an ability to monitor and analyse strategic pitfalls and take sound business decisions.
- Identify and analyse the nature of strategic advantage, process and decision;
- Identify and analyse strategic issues confronting managers of the strategic process;

# MODULE NAME: ADVANCED LABOUR RELATIONS IV

## MODULE OVERVIEW:

ADLR IV focuses on the current developments of collective labour law whilst emphasising the roles played by the state, capital and labour in the context of South Africa. Collective labour law governs the relationships between employers, or groups of employers, on the one hand and employees on the other the hand who have decided to act collectively- generally through the establishment of trade unions. The right to act collectively has its roots in freedom of association.

# MODULE OUTCOMES

Students must be able to:

- Understand the development of collective labour law globally in the South African context.
- Understand the legal framework and how expatriates are affected in multi-national organisations.
- Demonstrate an increased understanding of procedural requirements for a strike and lockout to be "protected", resulting in the employees being protected from being dismissed.
- Reflect critically on what avenues are available to employers when faced with a strike action.

## MODULE NAME: ADVANCED ORGANISATIONAL BEHEHAVIOUR IV

# MODULE OVERVIEW:

ORGB IV is a field of study devoted to understanding, explaining, and ultimately improving the attitudes and behaviour of individuals and groups in organizations. The purpose of Advanced Organisational Behaviour is to understand what being a HR practitioner entails, what are expected of HR managers/practitioners, what type of work they do and what skills, knowledge and attributes they need in order to do it. This is important because, as Human Resource practitioners and managers of the future, are going to be part of the business world and must be able to deal effectively with the organisation's resources and the various factors that bring about change in the workplace.

### MODULE OUTCOMES

Students must be able to:

- Describe distinctive elements of organizational culture, social influence, interpersonal communication, and organizational change as applied in the work settings.
- Attain competent knowledge in a thematic area within the major.
- Demonstrate critical awareness of the influence of organizations in society in the context of at least one of the following: class and social stratification, gender, power, community and economic development, technology, alternative organizational forms, critical theory, an industry such as education, law or health care.

# MODULE NAME: INTRODUCTION TO RESEARCH METHODOLOGY

### MODULE OVERVIEW:

The primary purpose of basic research methodology is documentation discovery, interpretation or the research and development of methods and systems for the development of human knowledge. The aim is of this module is to help the students understand research processes and skills needed to conduct research projects.

# MODULE OUTCOMES:

Student must be able to:

- Conduct research under supervision in the field relating to human resource management.
- Contextualise existing human resource management knowledge in the fields of business, commerce and management.
- Report research findings

### 2.3. DEPARTMENT OF HUMAN RESOURCE MANAGEMENT

Postgraduate Diploma in Human Resource Management

| Qualifications | SAQA ID           |
|----------------|-------------------|
| PGDip: HRM     | 101558            |
| NQF Level: 8   | SAQA Credits: 120 |

### Rationale for the Qualification

The aim of this qualification is to equip learners to address scarce and critical skills in the country. It is designed to allow qualifying learners an opportunity to acquire applied competence in the field of Human Resource Management required for registration with the professional body (South African Board for People Practices (SABPP). Its curriculum is based on the human resource standards designed by SABPP which will facilitate the registration of qualifying students as Chartered Human Resource Practitioners.

Furthermore, it is designed to align the Human Resource Management qualifications with the Higher Education Qualifications Sub-Framework (HEQSF). The qualification provides an articulation route to higher qualifications for learners who complete the Advanced Diploma in Human Resource Management at NQF level 7. The Postgraduate Diploma in Human Resource Management which is offered at Level 8 articulates horizontally into Honours Degree or vertically into a Master's Degree at Level 9.

#### Statement of Purpose

The Postgraduate Diploma in Human Resource Management is designed to provide learners with in-depth knowledge and skills in Human Resource Management which will enable them to independently gather analyse and apply the knowledge gained to solve complex Human Resource Management problems in the business environment.

#### **Qualification Rules**

This qualification comprises 5 compulsory modules at Level 8 totaling 120 Credits.

# Exit Level Outcomes

A learner who successfully completes this programme will be able to:

 Contribute to the development and implementation of a Human Resource strategy for the organisation.

- Support and implement procedures and systems related to the human resource management clusters.
- Contribute towards the organisational strategic planning process.
- Conduct applied research and compile reports in the broad field of Human Resource Management.
- Understand the broad vision and understanding of the economy within which the business operates (macro-vision).

### Admission requirements

An appropriate Bachelor's degree, BTech or Advanced Diploma in Human Resource Management or related field (CESM codes 40101 and 40801/2/3&5) with an average pass mark of 60% or more. In instances where a student obtained less than 60%, a minimum of two years' experience in a Human Resource related field will be considered.

### ALL ADMISSIONS ARE BASED ON A SELECTION PROCESS ONLY!!!

#### **Duration of Study**

Full-time: One year Part-time: Two years

#### Teaching, Learning and Assessment

#### Integrated Assessment:

All assessments will integrate knowledge, skills, attitude and applied competence of the discipline. The

institutional assessment policy makes provision for assessment instruments ranging from written or oral tests, presentations on topical business issues, assignments, projects, case studies or simulation exercises to name a few.

### Formative Assessment:

For this qualification a minimum of two assessments constitute a year mark. Learners are expected to write at least one test and other type of group assessment. Lecturers are encouraged to use a variety of assessment instruments in order to cater for different learning abilities of learners. The weighting of the formative assessment is 40%.

### Summative Assessment:

Learners are expected to compile one comprehensive individual project which assesses multiple learning outcomes. The weighting of the project is 60%.

A candidate passes the subject if a final mark of at least 50% is obtained. The final mark consists of the formative and summative mark in the ratio of 40:60 respectively.

### **Course Content**

### MODULE NAME: ADVANCED STRATEGIC MANAGEMENT V

# MODULE OVERVIEW

An organisation's strategy provides direction and guidance in terms of not only what the organisation should do but also what it should not do. Knowing what not to do can be as important as knowing what to do strategically. At best making the wrong strategic moves will prove a distraction and a waste of organisation's resources. At worst, it can bring about unintended long-term consequences that put the organisation's very survival at risk.

It is however important to continuously review the strategy because of the dynamic nature of the business environment within which an organisation operates. Regardless of whether the organisation's strategy changes gradually or swiftly, the important point is that the task of crafting strategy is not a one-time event but always a work in progress. This is the main lesson that the course is intended to teach students at this level.

### MODULE OUTCOMES

Student must be able to have:

- An in-depth understanding and ability to compile / formulate a strategic plan of a large organisation.
- An understanding of the five-step process of crafting and executing a strategy, namely:
- o Setting a strategic direction for the organisation;
- o Developing strategic as well as financial objectives with which to measure progress;
- o Crafting strategies to achieve targets;
- o Implementation and execution of strategy; and
- o Monitoring progress and making corrective adjustments needed.

# MODULE NAME: ADVANCED LABOUR RELATIONS V

#### MODULE OVERVIEW

Advanced Labour Relations V is offered as a course in the Postgraduate Diploma in Human Resource Management and is aimed at empowering learners with comprehensive knowledge, applied competence and the ability to solve complex problems in individual and collective labour law for continued personal intellectual growth, gainful economic activity and valuable contributions to society.

Advanced Labour Relations V provides an understanding of the development of labour law globally and its applicability to the South African context in resolving organisational conflict. The acquisition of the appropriate collective bargaining and negotiation skills on completion of the course promotes the management of organisational-wide conflict and quality labour relations management.

### MODULE OUTCOMES

Students must be able to:

- Develop a strategic plan to manage the labour relations function in an organisation;
- Apply South African labour legislation appropriately within an organisation;
- Demonstrate the requisite knowledge for the management of employee relations in an organisation;
- Negotiate in a specific situation within the context of the South African legislative and organisational policy framework;
- Demonstrate an understanding of the development of labour legislation globally and its applicability to South African context;
- Apply the requisite negotiation skills applicable to the specific situations within the context of the legislative and organisational policy framework; and
- Manage the achievement of the objectives of the organisation by linking the organisational and labour relations strategies.

### MODULE NAME: ADVANCED HUMAN RESOURCE DEVELOPMENT V

## MODULE OVERVIEW

This module enables students to manage appropriate HRD policies, processes, procedures and interventions in line with the organisational priorities, national imperatives, legislative framework, trends and developments in a broader global environment. The curriculum includes various HRD perspectives; theory; policy formulation; a framework for processes; quality assurance; leadership and management development.

The aims and objectives of this program include planning training programs based on identified performance gaps by enabling individuals to achieve short-term and long-term career goals. HRD supports succession planning by implementing leadership development programs. Human Resource Development programs also help organizations comply with the HRD legal framework.

# MODULE OUTCOMES

Student must be able to:

- understand and apply the principles and concepts of organisational development at a strategic level and to enhance organisational performance at the employee, team and organisational levels;
- develop and manage appropriate HRD interventions in line with the organisational priorities, national imperatives, legislative framework, trends and developments in a broader global environment;
- gain comprehensive and specialised knowledge, critical reasoning ability in organisational development and real-world problems related to the field of OD in the South African organisational context;
- understand the formulation, implementation and control of strategic plans and be able to evaluate and develop a strategic HRD plan; and
- establish, manage and maintain a strategic HRD portfolio and strategy for an organisation and ensure compliance with the legislative prescripts related to HRD.

### MODULE NAME: STRATEGIC HUMAN RESOURCE MANAGEMENT V

### MODULE OVERVIEW:

This discipline covers the concepts and practices that guide and align Human Resource Management philosophy, tactical planning and practice with the strategic and long term goals of the organization, with a particular focus on human capital. It deals with the macro-concerns of the organization regarding structure, guality, culture, values, commitment, matching resources to future needs and other long-term issues.

Strategic HRM gives direction on how to build the foundation for strategic advantage by creating an effective organizational structure and design, culture, employee value proposition, systems thinking, an appropriate communication strategy and preparing an organization for a changing landscape, which includes downturns and mergers & acquisitions. Sustainability and corporate social responsibility come within the ambit of this discipline, especially with reference to organizational values and their expression in business decision making.

Strategic HRM emphasizes organizational codes of ethics, managing the societal impact of business decisions, philanthropy and the role of the human resource professional in improving the quality of life of employees, their families and the community at large.

### MODULE NAME: ORGANISATIONAL DEVELOPMENT V

### MODULE OVERVIEW

Organizational Development (OD) is a management discipline designed to improve an organization's effectiveness and productivity. Rooted in behavioral science foundations, OD focuses on complex interpersonal skills as they affect the problem solving activities critical to the organization/s. It is a systematic approach to organizational improvement that applies behavioral science theory and research in order to increase individual and organizational well-being and effectiveness. Organization development (OD) applies behavioral-science knowledge and practices to help organizations change to achieve greater effectiveness. It seeks to improve how organizations relate to their external environments and function internally to attain high performance and high quality of work life.

# MODULE OUTCOMES

A student must be able to:

- Introduce students to organisational change and development theories and develop fundamental knowledge of organisational change as an area of management.
- Explore various models and analytical tools used by organisational change practitioners.
- Identify and critically evaluate a variety of organisational change interventions.
- Develop critical thinking and analytical skills in applying organisational change theory to various workplace situations.
- Develop an understanding of the challenges that both managers and employees face when experiencing change

# MODULE NAME: RESEARCH METHODOLOGY

### MODULE OVERVIEW

This course presents exposure for theoretical understanding of a wide range of research approaches in management sciences as well as prepares students for application of research processes for practical problem solutions in the business environment.

# MODULE OUTCOMES

Student must be able to:

- Demonstrate an understanding of the principles underlying the design, process and analysis of a range of management research;
- Identify appropriate research methods for particular research settings and be able to relate different research methods to theoretical perspectives;
- Independently carryout research projects; and
- Report research findings.

## 3. DEPARTMENT OF MARKETING

# 3.1 Diploma in Marketing (MAKDIP)

NQF Level 6

SAQA Credits: 360

SAQA ID 96863

### The rationale for the Qualification:

This qualification opens up students to various career paths in the corporate world. It equips students with competencies that enable them to understand basic functional levels across the business and their contribution to the organisation's mission and vision. The qualification aims to teach marketing/business skills which include the following:

- · Marketing planning and implementation of marketing plans.
- Customer relationship management (CRM).
- Comprehension and analysis of the customer decision-making process (DMP) and how to manage it
  effectively.
- · Bazaar segmentation, targeting and brand/product positioning.
- How to optimise the concept of the marketing mix to deliver superior service quality and outperform competitors.

### Statement of Purpose:

The purpose of this qualification to develop marketers from entry to middle management level. This is achieved through the delivery of up-to-date marketing content, but also by developing soft skills such as organisation, problem-solving, people-centredness, digital and information literacies. The qualification provides the entry point into the diverse field of marketing; hence it prepares future marketers for various industries.

## Exit Level Outcomes:

On completion of this qualification, students must be able to:

- Demonstrate fundamental and practical knowledge of marketing as a field of study, particularly striking a balance between financial interests and status of an organisation and the customer interests.
- · Practice and coordinate the fundamentals of selling.
- · Appreciate the fundamentals of demand and supply in an economic situation.
- · Appreciate the implications of relevant laws on marketing activities.
- · Contribute to the strategic marketing planning process levels.
- Formulate a research problem, collect, analyse and interpret data as part of the marketing information systems (MIS).
- · Integrate and deploy technology in various aspects of marketing.
- · Plan, determine and implement an integrated marketing communications strategy.

## **Qualification Rules:**

Students registering for the first time for this qualification must have satisfied entry requirements specified in admission requirements [see (a)(i - iv) below] and also available - at Central Applications Office (CAO) platform. Students who have been studying at other institutions of higher learning but seeking to finish their studies at MUT cannot be credited with more than seven (7) courses which are 50 per cent of the total curriculum of fourteen (14) courses.

#### Admission requirements: Diploma in Marketing

(i)

| National Senior Certificate with rating pass code | es: |
|---|-----|
| English Home Language                             | 3   |

| Grade The total minimum number of po    | ints required  | D average (50%)  |

| (iii) | National Certificate Vocational (NCV) level 4            |     |
|-------|--|-----|
| . ,   | English  | 60% |
|       | And  |     |
|       | Mathematics  | 40% |
|       | Or   |     |
|       | Mathematical Literacy                                    | 50% |
|       | And  |     |
|       | Four other commute any outling to with a minimum of 500/ |     |

Four other compulsory subjects with a minimum of 50%

#### (iv) National Certificate N4 (TVET Colleges)

Students who obtained minimum points between 20 and 24 from Matric and passed four subjects at N4 Level with a minimum of 50% will be considered for selection. All business subjects will be considered.

The satisfaction of other requirements for further selection may be required.

#### **Duration of Study:**

The qualification is meant to be completed in **three years as a minimum duration**. However, a struggling student may complete the qualification in **five years as a maximum duration**.

#### Teaching, Learning and Assessment:

A blended learning approach will be adopted throughout the courses that make up this qualification. Contact sessions (lectures) are timetabled. There are three assessments which make up a Course Mark (CM/DP) and the fourth assessment is examination. The assessments are structured as follows:

| Assessment 1 | Weighting: 20% of the assessment(s) score | е  |
|--------------|---|----|
| Assessment 2 | Weighting 30% of the assessment(s) score  | re |
| Assessment 3 | Weighting: 50% of the assessment(s) score | е  |

NB: There could be many sub-assessments that make up the three-assessments listed above. The sum of weighted scores from the three broad assessments listed above will be your year mark (famously known as the DP)

Examination (Assessment 4): Students must accumulate a minimum year mark of 40% to qualify for the final examination.

The final mark will be weighted as follows: Year mark X 0.40 plus examination mark X 0.60

### 3.2 Advanced Diploma in Marketing (ADVMAK)

SAQA ID: 94555

NQF Level 7

SAQA Credits 120

### The rationale for the Qualification:

This qualification is a progression from the undergraduate Diploma in Marketing to bring students to a bachelor's degree level of study in order enable them to advance to the Post-graduate Diploma in Marketing which is equivalent to an honour's degree.

### Statement of Purpose:

The functional purpose of this qualification is to equip marketers who are operating at junior and middle management with knowledge and skills to apply strategic marketing in making the necessary decisions for the business.

### **Qualification Rules:**

students registering for the first time for this qualification must have satisfied entry requirements specified in admission requirements made available in the handbook. Students qualify by having completed the diploma in Marketing or an equivalent qualification. Recognition of prior learning is also considered when considering an application of a person who has work marketing experience plus a qualification which is not at the same NQF level with the Diploma in Marketing.

### **Exit Level Outcomes:**

A graduate of the Advanced Diploma in Marketing must be able to:

- Formulate and apply business strategy in planning
- Scan the business environment and formulate a marketing strategy
- · Craft and execute marketing strategies for all types of products

- · Apply marketing principles and strategy in services marketing
- · Plan and conduct marketing research for corporate business and marketing decision-making

### Admission requirements: Advanced Diploma in Marketing

Diploma or National Diploma in Marketing passed with an aggregate 60% or above. In instances where the prospective student obtained less than 60% aggregate pass, a minimum of two years working experience in a Marketing related field will be considered. Other admission requirements will be applied as detailed in the Recognition of Prior Learning policy.

The satisfaction of other requirements for further selection may be required

## **Duration of study**

1-year fulltime study 2 years part-time study

*Please note*: as from 2020, the Advanced Diploma will be one year. Those intending to take up an option for two years must motivate for consideration.

#### Teaching, Learning and Assessment:

A blended learning approach will be adopted throughout the courses that make up this qualification. Contact sessions (lectures) are timetabled. There are three assessments which make up a Course Mark (CM/DP) and the fourth assessment is examination.

The assessments are structured as follows:

| Assessment 1 | Weighting: 20% of the assessment(s) score |
|--------------|---|
| Assessment 2 | Weighting: 30% of the assessment(s) score |
| Assessment 3 | Weighting: 50% of the assessment(s) score |

NB: There could be many sub-assessments that make up the three assessments listed above. The sum of weighted scores from the three broad assessments listed above will be your year mark (famously known as the DP) which carries 40% of the final mark.

Examination (Assessment 4): Students must accumulate a minimum year mark of 40% to qualify for the final examination which carries 60% of the final mark.

The final mark will be weighted as follows: Year mark X 0.40 plus examination mark X 0.60

| IV                          | Recapping on strategy   |
|                             | <ul> <li>Conducting industry analysis for strategy formulation.</li> <li>Exploring organisational resources and capabilities for competitive strategy.</li> </ul> |
|                             | <ul> <li>Further exploring strategy: Strategy development<br/>processes and organising and strategy.</li> </ul>   |
|                             | <ul> <li>Introducing stakeholder and corporate governance.</li> <li>Evaluating the importance of organisational history and culture.</li> </ul>                   |
|                             | <ul> <li>Recapping on corporate strategy and models.</li> <li>Introduction to international/global strategic dynamics.</li> <li>Evaluating strategies.</li> </ul> |
|                             | Introduction to leadership and change management.   |
| Advanced Services Marketing | The curriculum of this course includes:   |
| IV                          | <ul> <li>Introducing services marketing and highlighting how it is<br/>different from marketing of physical goods.</li> </ul>                                     |
|                             | <ul> <li>Discussing the foundations for services marketing and<br/>understanding consumer behaviour in service<br/>environments.</li> </ul>                       |
|                             | <ul> <li>Aligning service design and standards.</li> <li>Delivering and performing service.</li> </ul>  |
|                             | <ul> <li>Managing service promises through an extended Ps model.</li> </ul>   |
|                             | Examining service and profitability.  |

| Advanced Promotion IV | The curriculum of this course includes:   |  |  |
|-----------------------|---|--|--|
|                       | Analysis of a situation requiring a promotion event.  |  |  |
|                       | <ul> <li>Conceptualisation and development of an event plan.</li> </ul>   |  |  |
|                       | <ul> <li>Evaluation of the effectiveness of an IMC program or<br/>event.</li> </ul>   |  |  |
|                       | Evaluation of the role of IMC in brand Management.  |  |  |
|                       | Discussion of the role of IMC in buyer behaviour.   |  |  |
|                       | <ul> <li>Discussion and distinguishing alternative marketing from<br/>traditional marketing.</li> </ul>                                       |  |  |
|                       | Development of a media plan and strategy.   |  |  |
| Advanced Marketing    | The curriculum of this course includes:   |  |  |
| Research<br>IV        | <ul> <li>Explaining the reasons why marketing research is<br/>essential to marketers and the organisation at large.</li> </ul>                |  |  |
|                       | <ul> <li>Discussing how marketing or business information is<br/>mined through research processes.</li> </ul>                                 |  |  |
|                       | Defining research-related terminology.  |  |  |
|                       | <ul> <li>Highlighting ethical issues to be observed in marketing research.</li> </ul>   |  |  |
|                       | Conducting literature review.   |  |  |
|                       | <ul> <li>Adhering to academic writing standards including<br/><u>Referencing/Citation</u>.</li> </ul>   |  |  |
|                       | <ul> <li>Writing a research proposal that meets all research<br/>process standards and culminate into a full research<br/>project.</li> </ul> |  |  |

### 3.3 Postgraduate Diploma in Marketing (PGDMAK)

### SAQA ID: 110929

## NQF Level 8

SAQA Credits 120

### The rationale for the Qualification:

This qualification will address the needs of marketers who aspire to function at corporate decisionmaking level in any business organisation. Marketing Leadership and Planning, Analysis and Strategic Decision, and Managing Corporate Reputation, are listed as the first, fourth and fifth critical skills required to operate in marketing at corporate level with regard to the curriculum of this qualification.

Furthermore, this qualification will:

- Enable learners to function in specialised fields of general and marketing management, thereby preparing them to develop into Chief Marketing Officers (CMOs) of organisations.
- Equip executives operating at corporate level to initiate and manage marketing projects methodically and successfully in order to accomplish corporate goals.

There are many people either employed at middle and strategic marketing levels without a formal marketing qualification. For example, the Marketing Association of South Africa (MASA, 2019), in response to this gap recalibrated their designations to Strategic, Tactical and Operational levels. The emphasis was on the strategic marketing skills which were deemed to be in short supply. Therefore, this qualification will complement other approaches such as that by MASA to close this gap for the industry in need of strategic marketing skills.

### Statement of Purpose:

The purpose of the Postgraduate Diploma in Marketing is to provide learners with skills work or promoted into the middle and senior management within organisations. Therefore, this qualification will contribute to growing strategic marketing skills base for the industry at large. Also, the qualification will provide a gateway for those who would want to study further and join academia. Qualifying learners can effectively function at strategic level of any organisation and also give them leverage to lead global campaigns.

### **Qualification Rules:**

Students registering for the first time for this qualification must have satisfied entry requirements specified in admission requirements made available in this handbook and the Regulations. Students qualify by having completed the Advanced Diploma in Marketing or an equivalent qualification.

### Exit Level Outcomes:

A graduate of the Postgraduate Diploma in Marketing must be able to:

- Develop effective high-level strategic marketing plans in line with an organisation's corporate and business strategic intent.
- Plan, organise, direct and control an event or project to achieve the set marketing objectives or devise solutions to business problems.
- Evaluate and analyse the dynamics impacting on global marketing environment to be able to lead
  organisation's global marketing campaigns.
- Plan for sourcing and storage or raw materials, manufacturing and storage of the product, and distribution of the product to the shop floor.
- Undertake a marketing audit and develop strategic options to make strategic decisions.
- Apply marketing research skills to evaluate, investigate, explore, and determine marketing, market and business problems.

### Admission requirements: Postgraduate Diploma in Marketing

An Advanced National Diploma in Marketing passed with an aggregate 65% or above. In instances where the prospective student obtained less than 65% aggregate pass, a minimum of two years working experience in a strategic marketing-related field may be considered. Other admission requirements will be applied as detailed in the Recognition of Prior Learning policy.

The satisfaction of other requirements for further selection may be required.

### Duration of study: 1 year - fulltime study

#### Teaching, Learning and Assessment:

A blended learning approach will be adopted throughout the courses that make up this qualification. Contact sessions (lectures) will be timetabled. There are three assessments which make up a Course Mark (CM/DP) and the fourth assessment is examination. Research Methodology module will employ continuous assessment (CA) as indicated in the course outline.

The assessments for the other courses are structured as follows:

| Assessment 1 | Weighting: 20% of the assessment(s) score |
|--------------|---|
| Assessment 2 | Weighting: 30% of the assessment(s) score |
| Assessment 3 | Weighting: 50% of the assessment(s) score |

NB: To allow for the full coverage of the planned curricula for the courses, there could be many subassessments that make up the three assessments listed above. The sum of weighted scores from the three broad assessments listed above will be used as the year mark (famously known as the DP) which carries 40% of the final mark. Examination (Assessment 4): Students must accumulate a minimum year mark of 40% (DP) to qualify for the examination which carries the 60% of the final mark.

The final mark will be weighted as follows: Year mark X 0.40 plus examination mark X 0.60

| Analysis and Strategic Decision | <ul> <li>The curriculum of this course includes:</li> <li>Introduction to management information systems (MIS).</li> <li>External and internal business environmental audit.</li> <li>Assessing marketing opportunities for strategic fitness.</li> <li>Impact analysis of strategic decisions.</li> </ul>   |

## 4. DEPARTMENT OF OFFICE TECHNOLOGY: 2025

### 4.1 Diploma in Office Management and Technology

NOF Level: 6

SAQA Credits

360

Qualification: ID 72303

### Rationale for the Qualification

The Office Management and Technology programme provides an opportunity for the learner to acquire a range of administrative skills and business management, crucial to the successful functioning of any organization.

### Statement of Purpose

This gualification provides students with background knowledge of the concepts underlying many of the administrative tasks that they may be required to perform. It also prepares students fully for any eventuality in their future administrative careers so that they will be able to perform their duties efficiently and with confidence. The qualification gives students a thorough business background so that they understand the business environment in which they will be working.

### Qualification Rules

A student will not be admitted to the following level of a subject if he/she has not passed the previous level e.g. if a student fails Information Administration I. he/she will not be allowed to register for Information Administration II until Information Administration I has been passed.

A student cannot do Work Integrated Learning if he/she has outstanding subjects from the previous years.

To be promoted to the next level of the course, the student shall pass at least three subjects, one or two of which should be a major subject.

### Exit Level Outcomes

- A learner who successfully completes this programme will be able to:
- Demonstrate fundamental business administration or management competencies in the Administration and Information Management environment.
- Demonstrate proficiency in the application of administrative; Information and Communication Technology principles.
- Apply appropriate communication principles and skills in a multi-disciplinary business environment.
- Demonstrate knowledge of key Human Resources Management concepts and practices in the context of an administrative environment.
- Apply basic legal principles in the context of Business and Information Management activities.
- Demonstrate basic entrepreneurship knowledge and skills.
- Admission а.
- To be admitted to the above-mentioned programme, a candidate shall have obtained a valid (1) National Senior Certificate, Senior Certificate, National Certificate (Vocational) or qualifies to be admitted in terms of the Recognition of Prior Learning (RPL) assessment.
- (2) The table below shows the minimum requirements for the programme (except RPL).

### Minimum Admission Requirements (25 points) for National Senior Certificate

| English Home<br>Language | English First Additional<br>Language | Any other <b>5</b> additional subjects excl. Life Orientation |
|--------------------------|--------------------------------------|---|
| 3                        | 4                                    |   |

### Minimum Admission Requirements (25 points) for Senior Certificate

| English Higher Grade | English Standard Grade |
|----------------------|------------------------|
| E                    | D                      |

### National Certificate Vocational (NCV) Level 4

| Communication | Additional 5 Subjects: |
|---------------|------------------------|
|               | Mathematical Literacy  |
|               | Business Practice      |
|               | Office Data Processing |
|               | Applied Accounting     |
|               | Personal Assistant     |
| 50%           | 50%                    |

## **Recognition of Prior Learning (RPL)**

Candidates that are able to demonstrate high levels of competencies, through summative assessment processes attached to the above-mentioned programme, will receive recognition of prior learning RPL; in recognition of competencies attained in the workplace setting for many years without having gained any formal qualification.

- (3) A student who fails to maintain satisfactory academic progress in terms of General Rule: G.20 (1)
- and (2) shall be refused further admission to the department except by special permission of Senate.
- (4) The admission of a student previously registered in an equivalent department at another University
- of Technology shall be subject to the same rules as if he/she previously had been in this department.

## Please take note of the following:-

Admission will be based on merit and availability of spaces. Meeting the minimum requirements does not, in any way, guarantee admission.

### ALL ADMISSIONS ARE BASED ON A SELECTION PROCESS ONLY!!!

#### b. Duration of Study

| 3 years   | Full-time |

### Advanced Diploma in Office Management and Technology (2025)

NQF Level: 7

SAQA Credits: 120

## Qualification ID 97817

### Rationale for the Qualification

- The growth of academic programmes, more especially post-graduate qualifications is one of the strategic priorities of MUT. This qualification contributes in this regard.
- The design of this programme is aligned with the structure of the revised HEQSF and thus providing qualifying students with a clear articulation route for further study
- The programme will equip students to meet the demands of post-graduate studies and equip them with research skills, which are vital skills required in the Higher Education Sector and Industry.
- This qualification will provide students with learning experiences that will equip them with applied competencies to function at an advanced level in the field of office management and technology
- The introduction of the proposed programme will contribute to the development of the required administrative skills for the South African economy.

## Statement of Purpose

This post-graduate qualification provides professional specialization in office administration at the managerial level. Successful candidates will be able to manage information and communication technologies and systems pertaining to administrative operations. It develops the students' abilities to critically analyse problems associated with Business Administration, Information Administration, Labour Relations related issues and Advanced Project Management.

## **Qualification Rules**

The learner will be awarded with this qualification if he/she has provided evidence (to the satisfaction of the assessors) that the outcomes of the programme specified below have been achieved.

### **Exit Level Outcomes:**

 Demonstrate integrated knowledge of the central areas in the field of Office Management and Technology including an understanding of and the ability to apply and evaluate key terms, concepts, facts, principles, rules and theories in this field and related fields or disciplines

The term "central areas" includes but is not limited to: Management and Leadership; Management Information Systems; Information and Communication Technology; Financial Management, Customer Relations

Management; Project Management, including events coordination; Logistics Management; Social Networking Applications (SNA) and ; Social Knowledge Networks (SKN)

- Demonstrate the ability to identify, analyse, evaluate, critically reflect on and address complex problems, applying evidence-based solutions and theory driven arguments.
- Demonstrate the ability to access, process and manage information, the ability; the ability to develop
  appropriate processes for information gathering for a given context or use, as well as the ability to
  independently validate the sources of information and evaluate and manage the information
- Demonstrate an ability to develop and communicate own ideas and opinions in well-formed arguments using appropriate academic , professional or occupational discourse
- Demonstrate the ability to take decisions and act ethically and professionally and the ability to justify
  the decisions and actions drawing on appropriate ethical values and approaches within a support
  environment
- Apply basic research principles, methodologies and techniques
- Apply knowledge of self and team in order to develop a plan to enhance team performance
- · Demonstrate understanding of the primary labour legislation that impacts on a business unit

#### a. Admission Requirements

Diploma: Office Management and Technology or equivalent qualification with an aggregate of 60% or above. In instances where the prospective student obtained less than 60% aggregate pass, a minimum of two years working experience in Office Management/Administration related field will be considered. Other admission requirements will be applied as detailed in the Recognition of Prior Learning Policy.

Preference for the part-time programme will be given to students who are already employed in the Office Management/Administration environment. Each application will be considered on its own merit.

#### b. Duration of Programme

One-year full-time study Two years part-time study

#### c. Curriculum Compilation and Pre-Requisites

## 5. DEPARTMENT OF PUBLIC ADMINISTRATION & ECONOMICS

| 5.1 Qualification: Dip | loma in | Public Management (PUBLAS) | SAQA ID: 72290 |
|------------------------|---------|----------------------------|----------------|
| NQF Level              | :       | 6                          |                |
| SAQA Credits           | :       | 360                        |                |

### Rationale for the Qualification

The public sector is in dire need to absorb young skilful human capital that will satisfy the requirement of outcome-based government in South Africa. This qualification provides students with an opportunity to equip themselves with the necessary knowledge, skills and competencies to contribute to an effective and efficient service delivery.

#### Statement of Purpose

The Diploma in Public Management targets interested candidates from schools, TVET colleges and working officials preferably from the Public Sector. Through this qualification, learners will acquire the necessary skills and competencies to carry out the expected administrative tasks and enhance their management abilities thereby contributing to improved service delivery. In so doing, officials in the public service must uphold high ethical standards since South Africa is part of a global market which responds to international standards. This will enhance principles of Good Governance and International Relations.

### **Qualification Rules**

Learners will qualify on condition they have completed all modules which account for 360 credits. Final year learners are expected to undertake Work Integrated Learning at different public sector organisations for a minimum period of three (3) months.

#### **Exit Level Outcomes**

- Demonstrate comprehensive management skills and competences required by the public sector.
- Manage public resources such as finance, human capital, time, assets, and equipment according to relevant legislations and regulations to ensure accountability and responsibility.
- Apply principles of outcome-based government characterized by effective and efficient service delivery.
- Apply knowledge and insight of public human resource management systems and practices in the public sector context.
- Demonstrate knowledge of the fundamental principles of supply chain management theory and practice in local and global government environment.
- Interpret and implement public policy according to applicable legislative frameworks.
- Manage programmes and projects effectively and efficiently within the principles of outcome-based government.
- Demonstrate a sound understanding of management principles in a local government context.

### Admission requirements

National Capier Cartificate with ratings and

| National Senior Certificate with ratings codes:   |      |
|---|------|
| English Home Language                             | 3    |
| Or English First Additional Language              | 4    |
| Total Minimum Points (excluding Life Orientation) | (25) |

### National Diploma in Public Administration/Public Management N6 (TVET)

Students who obtained an average of 60% at N6 level will be considered for selection.

### **Recognition of Prior Learning**

Applicants who do not meet the minimum requirements may be granted Recognition of Prior Learning (RPL) in recognition of competencies attained in the public sector workplace. The application of the RPL programme will be guided by the RPL Policy of the University.

## ALL ADMISSIONS ARE BASED ON THE SELECTION PROCESS ONLY

## **Duration of Study**

The Diploma cannot be completed in less than three years and must be completed within six years of registration.

## **OFFERING TYPES**

This programme is offered on a: Full-time (Day) and Full-time (Evening) basis. Evening classes are meant to accommodate working students and are held for the same duration as Day classes,

## DIPLOMA: PUBLIC MANAGEMENT (PUBLAS)

### Teaching, Learning and Assessments

All assessments will integrate knowledge, skills, attitude, and applied competence of the discipline. The institutional assessment policy makes provision for assessment instruments ranging from written or oral tests, presentations on topical public sector issues, assignments, case studies, integrated projects or simulation exercises, portfolio of evidence and any other forms of assessments.

### **Formative Assessments**

Three assessments constitute a year mark which contributes 40% of the final mark. A range of assessment methods will be use in assessing the learners including amongst others: Written or Oral tests, projects; Simulations, Tutorial Exercises, Assignments, and Case studies.

#### Summative Assessments

A candidate passes the subject if a final mark of at least 50% is obtained. The final mark consists of the year mark and examination mark in the ratio of 40:60, respectively.

### **Progression Procedure**

Students with unsatisfactory academic performance will be refused admission to further their studies in this programme. Refer to General Regulations for students (Unsatisfactory Academic Performance under G20)

#### Work Integrated Learning

Learners must apply for Work Integrated Learning (WIL) upon the successful completion of the second year of study. They must register WIL in terms of the applicable policies and procedures of the University. Prior to attending Work Integrated Learning (WIL)/Project Based Learning (PBL), a compulsory Work Readiness

Training will be attended by learners prior to placements. A Portfolio of Evidence (PoE) will be submitted upon completion of the placement period. Project Based Learning allows learners to plan and implement a practical project in the Public Sector environment, thereby allowing learners to apply theoretical concepts learned in the Programme to solve problems.

# 5.2 ADVANCED DIPLOMA IN PUBLIC MANAGEMENT

| SAQA ID      | : 111159 |
|--------------|----------|
| NQF Level    | : 7      |
| SAQA Credits | : 120    |

## **Rational for the Qualification**

The public sector requires highly skilled workforce that will gratify the obligation of an outcome-based government and development state. This qualification provides students with an opportunity to equip themselves with knowledge, skills, and competences to contribute to the advancement of governance in the public sector.

## Statement of Purpose

The Advanced Diploma in Public Management targets interested candidates who successfully completed a Diploma/National diploma in Public Management or equivalent. Through this qualification, learners will acquire advanced skills and competencies to carry out the expected management, administrative tasks and enhance their strategic abilities thereby contributing to improved service delivery. In so doing, officials in the public service must uphold high ethical standards since South Africa is part of a global market, which responds to international. This will enhance principles of Good Governance and International Relations.

## **Qualification Rules**

Learners will qualify on condition that they have completed all modules, which account for 120 credits.

## Exit Level Outcome:

- Provide a vision and set direction for the organization /unit and inspire others to deliver the
  organisational mandate.
- Provide effective institutional leadership by applying appropriate models, theories and leadership frameworks.
- Maintain and enhance confidence in the South African Public Service by applying effective organisational leadership skills.
- Apply strategic thinking in managing and leading Public Sector Organisation.
- Promote Honest Conduct in leading and managing the Public Sector Institution.

## Admission requirements

The minimum requirement for admission is a National Diploma or Diploma in Public Management or equivalent with an average pass mark of 60%. In instances where a student obtained less than 60%, a minimum of three years' experience in the public sector is considered.

# ALL ADMISSIONS ARE BASED ON THE SELECTION PROCESS ONLY

**Duration of Study** 

Full time one year Part time two years

| Total  |                           | 120     | 1                |                   |               |             |

### **Teaching, Learning and Assessment**

All assessments will integrate knowledge, skills attitude and applied competence of the discipline. The institutional assessment policy makes provision for assessment instruments ranging from written or oral tests, presentations on topical public sector issues, assignments, integrated projects or simulation exercises, portfolios of evidence and any other assessments.

### Formative assessments

Students write three assessments per year, and all three contribute to a year mark, which contributes 40% of the final mark. A range of assessment methods will be used in assessing the learners including amongst others: Written tests, Class presentations, Integrated Projects, Simulations, Assignments and Case Studies.

### **Summative Assessments**

The pass mark for all modules/subjects in the Advanced Diploma is 50%. The final mark consists of the year mark and examination mark in the ratio of 40:60 respectively. The subminimum rule applies to all modules.

# 5.3 ADVANCED DIPLOMA IN PUBLIC MANAGEMENT IN HUMAN SETTLEMENTS

| SAQA ID      | : 121179 |
|--------------|----------|
| NQF Level    | : 7      |
| SAQA Credits | : 120    |

# Rationale for the Qualification

The Advanced Diploma in Public Management in Human Settlements equips learners with context-specific, functional knowledge and competencies required to interpret, articulate, and apply human settlement policies in diverse social, cultural and environmental contexts. The programme will assist in addressing challenges identified in the National Development Plan (NDP) of building a state that can play a transformative and developmental role. This can only be achieved by having well-coordinated state institutions with skilled public servants committed to the public good and capable of delivering high quality services to South Africans.

#### Purpose of the programme

The qualification is a multi-disciplinary programme in the field of Human Settlements that aims at furthering the career development of learners in Human Settlements Management. It includes planning, monitoring and service delivery of housing and municipal services to both urban and rural dwellers. The qualification is aimed at equipping learners with the skills, knowledge and competencies that allow qualifying learners to engage in analytical thinking, problem solving and application of theoretical knowledge to solve practical problems in the field of Human Settlements Management.

#### **Qualification Rules**

Learners will qualify on condition that they have completed all modules, which account for 120 credits.

## **Exit Level Outcome**

- Conceptualize and apply theoretical knowledge acquired to plan and manage sustainable human settlements.
- Employ the principles and procedures of data gathering and analysis to produce empirical findings on issues that bear on human settlements' design/planning, development and management.
- Interpret human settlement legislations, policies and programmes.
- Acquaintance with technical design and construction aspects of houses, infrastructure and services within human settlement context.
- Implement community development initiatives on Human Settlements Management
- Comprehend the land use dynamics and land cover changes and their implications on human settlement service delivery.
- Develop and present a research project the Human Settlement context.
- Execute, analyse data from the field and produce research report in an area of Human Settlements Management.
- Provide responsible leadership in the management of human settlements.
- Apply Project Management concepts and principles in Human Settlement Delivery projects.

#### Admission requirements

Minimum requirement for admission is National Diploma/ Diploma in Public Management/Diploma
or National Diploma in Human Settlements Management/A Diploma/ National Diploma in Built
Environment/A cognate underpinning a Diploma/ National Diploma. Students must obtain an
average of 60% and above in related programmes. Prospective learners with prior learning may be
considered for admission in line with the MUT's RPL policy as approved by the Council of the
University. Students with less than an average of 60% but have a minimum of 3 years of experience
in the Public Sector will be considered.

# ALL ADMISSIONS ARE BASED ON THE SELECTION PROCESS ONLY

#### **Duration of Study**

- Full time one year
- Part time two years

## Teaching, Learning and Assessment

All assessments will integrate knowledge, skills attitude and applied competence of the discipline. The institutional assessment policy makes provision for assessment instruments ranging from written or oral tests, presentations on topical public sector issues, assignments, integrated projects or simulation exercises, portfolios of evidence and any other assessments.

## Formative assessments

Students undertake three assessments per year, which contribute to a year mark, and count 40% of the final mark. A range of assessment methods will be used in assessing the learners including amongst others: Written tests, Class presentations, Integrated Projects, Simulations, Assignments and Case Studies.

### **Summative Assessments**

The pass mark for all modules/subjects in the Advanced Diploma is 50%. The final mark consists of the year mark and examination mark in the ratio of 40:60 respectively. The subminimum rule applies to all modules.

| Module Name                | Content  |
|----------------------------|--|
| SEMESTER 1                 |  |
| Advanced Public            | Theories of Public Management:   |
| Management 4               | <ul> <li>Public Administration and development management</li> </ul>   |
|                            | Foundations of Public Management:  |
|                            | Public Resource Management   |
|                            | Public-sector office management and administration   |
|                            | Public Service delivery  |
|                            | Public Policy  |
|                            | <ul> <li>Ethics in Public Administration</li> </ul>  |
